LOCATION
Milan / Como, Italy (Relocation/Travel Ready)

TECHNICAL EXPERTISE

Programming & Quant
Python (Pandas, NumPy, Scikit-Learn, TensorFlow, Keras), R (tidyverse, car, leaps), SQL, Git, LaTeX.

Artificial Intelligence
Prompt Engineering, LLM System Integration, Machine Learning & Deep Learning.

Google Cloud & Anthropic Certifications (In Progress)

Football & Sports Analytics
Opta & FBref event telemetry, Expected Goals (xG) & xA modeling, role KPIs, scouting & player evaluation.

LANGUAGES

- Italian: Native
- English: Fluent (Professional Working Proficiency)

COMPETITIVE ATHLETICS

- Competitive Golf (Since 2014): Represented Lombardy at National Regional Championships and competed internationally for Italy.
- Hyrox Athlete: Functional fitness, aerobic endurance and high-intensity stamina.

ALESSANDRO CASTELLANI

MSc in Data Analytics for Business · BSc in Mathematics

EDUCATION

Università Cattolica del Sacro Cuore Sep 2025 – Present (Exp. 2027)
Master of Science (Laurea Magistrale) in Data Analytics for Business — Milan, Italy
Core coursework: Applied Linear Models, Algorithms & Deep Learning, Time Series & Spatial Data, Computational Statistics, Optimization Methods, Statistical Learning.

Università degli Studi dell'Insubria Oct 2020 – Mar 2025
Bachelor of Science (Laurea Triennale) in Mathematics — Como, Italy — Graduated
Thesis: Neural Network Architectures for Football Performance Forecasting using TensorFlow and Keras. Applied backpropagation and Adam optimization on multi-season performance metrics.

Pontificio Collegio Gallio Sep 2016 – Jun 2020
Liceo Scientifico Internazionale (High School Diploma in Science) — Como, Italy

PROFESSIONAL EXPERIENCE

Event & Festival Bartender / Hospitality Staff Apr 2025 – Present
International Music Festivals & High-Profile Events (Nameless Festival, Snowland Festival, etc.)

- Delivering high-volume beverage service and guest hospitality under peak attendance pressure (20,000+ daily attendees).
- Demonstrated stamina, rapid problem-solving, cash/POS reconciliation, and dynamic team coordination in fast-paced environments.

Operations & Front-Office Assistant Jan 2025 – Feb 2026
XROAD SSDRL (Part-Time) — Cadorago (CO), Italy

- Managed membership renewals, client onboarding, and CRM database records for 200+ members.
- Coordinated administrative workflow, customer query resolution, and daily front-office operations.

Private Mathematics Tutor Sep 2020 – Present
Independent Practice — Como / Milan, Italy
Mentored 50+ secondary and undergraduate university students in advanced calculus, linear algebra, and probability theory.

FEATURED QUANTITATIVE & ANALYTICS PROJECTS

Evaluating Offensive Production in Serie A (xG Linear Modeling) 2026
Academic Research (Cattolica) · R, Opta/FBref Data, Multiple OLS Regression

- Built log-linear models across 120 Serie A forwards analyzing xG drivers beyond shot volume ($R^2 = 91.4\%$, Adj $R^2 = 90.8\%$).
- Tactical outlier diagnostics (unveiling roles of Krunić, João Pedro, Cutrone) and out-of-sample validation on Olivier Giroud.

IFCS 2026 International Data Challenge 2026
Competitive Machine Learning Pipeline · Python, Scikit-Learn

- Predictive classification of SME financial distress across 14,000 balance sheets with signed_log1p transforms and 5-Fold Stratified CV.

Multi-Horizon XGBoost Prediction Engine & Dashboard 2026
Machine Learning Engineering · Python, FastAPI, XGBoost, Plotly

- Time-series forecasting with purged walk-forward validation and embargo buffers to strictly prevent lookahead bias; deployed REST API.

Serie A Player Profiling & Longitudinal Analytics 2024 – 2026
Football Scouting Suite · Python, Pandas, Plotly

- Longitudinal analysis across 5 seasons of central and wide defenders, tactical KPI radar profiles, and shot-stopping analytics.
